DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1,2-8, drawn to apparatus to change distance between eyepiece and eye.

Group 2, claim(s) 1,9-12, drawn to image combining optics.

Group 3, claim(s) 1,18-22,27,43-47,28,61-65,69, drawn to use of a peripheral region display to simulate depth.

Group 4, claim(s) 1,18,24,27,43,49,28,61,67,69, drawn to use of a peripheral region display to provide operational information.

Group 5, claim(s) 1,18,23,25,27,43,48,50,28,61,66,68,69, drawn to movement detection means that drives display changes.

Group 6, claim(s) 70,71,1,26,27,51,28, drawn to automatic configuration according to user configuration files.

Group 7, claim(s) 72,73,27,52,28, drawn to a chair with vibration feedback.

Group 8, claim(s) 27,37,28, drawn to chair with parallel link member.

Group 9, claim(s) 53,54,27,29-36,28,1,13, drawn to a moment cancelling balance.

Group 10, claim(s) 55,56,57,27,39,40,28,1,14,15, drawn to an expandable and contractible support.

Group 11, claim(s) 58,59,60,27,41,42,28,1,16,17, drawn to apparatus for adjustment of setting angle.

Group 12, claim(s) 27,38,28, drawn to apparatus for evacuation of display portion from user space.

Group 13, claim(s) 74,75,78,79, drawn to apparatus for infrared communication between systems.

Group 14, claim(s) 76,77,78,79, drawn to a system with voice input.

- 2. The inventions listed as Groups 1-14 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Each group represents a unique set of limitations, generally described above. The commonly claimed limitations, such as "a display portion that projects, via eyepiece optical systems which respectively correspond to each of the both eyes of a user, a light emitted from a two-dimensionally light emitting type photoelectric device which is perpendicular to the light beam emitting direction onto the eyeballs of said user and a face contact portion that is supported by said display portion, is provided in contact with the face sides of said user", represent only that which is well known and thus do not constitute special technical features.
- 3. Claims 1, 18, 27, 43 and 61 link(s) several of the inventions. The restriction requirement between the linked inventions is **subject to** the nonallowance of the linking claim(s). Upon the indication of allowability of a linking claim(s), the restriction requirement as to the linked inventions **shall** be withdrawn and any claim(s) depending from or otherwise requiring all the limitations of the allowable linking claim(s) will be rejoined and fully examined for patentability in accordance with 37 CFR 1.104 **Claims that require all the limitations of an allowable linking claim** will be entered as a matter of right if the amendment is presented prior to final rejection or allowance, whichever is earlier. Amendments submitted after final rejection are governed by 37 CFR 1.312.

Art Unit: 2629

Applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, the allowable linking claim, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Where a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

 Since this is an involved restriction, a telephone call was not made to request an oral election to the above restriction requirement.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ROBERT R. RAINEY whose telephone number is (571)270-3313. The examiner can normally be reached on Monday through Friday 8:30 AM to 5:00 PM.
